## Song Time Glove!

Velcro sensitive gloves can be made from Velfoam, which is the material used to make the headliners of cars. These gloves are very handy to use to enhance Circle Time activities. Counting fingerplays are more appealing to children when they can see 5 monkeys disappear one by one or 5 frogs jump into the pond. Fingerplay prop pictures can be made with the Mayer Johnson Boardmaker program or gotten off teacher websites for fingerplays. These songs and fingerplays are great fun with your child at home too!
